MINING, BUSINESS AND STOCKS.

THE WASHINGTON TO THE PROPERTY OF THE PROPERTY

CREAT TRADING THIS MORNING.

Activity Quite General and Market | A Million Dollar Company to Oper- | Transcontinentals Absorbed Great-Maintained Upward Tendency.

CALIFORNIA THE FEATURE. DR. FRANKLIN, PROMOTER. ST. PAUL'S RECORD PRICE.

Stock Market Was Characterized by Much Profit Taking in Many. I I mmoth Strong.

The mining share market displayed very marked activity this morning and a large business was transacted. Many stocks participated and while several stocks were tobogganed the market generally was strong and prices had an upward tendency. Much profit taking was noticed and this was partially responsible for the weakness of California was the feature of the ses-

sion. The stock opened with transac tions at 44 and with sales aggregating over 19,000 shares was driven downward to 4214 from which it recovered to 4314. Century was very slumpy and sold as low as 1.16, while Ingot advanced to figures over 13 cents.

figures over 13 cents.

Mammoth was very strong and was in much demand at figures higher than \$1.80. Some Grand Central traded at \$5.75 and 5.76, and Creole was very strong at 35. Yankee was tobogganed from 68% to 63 and Martha Washington was could consider able stronger.

was quite considerably stronger.
On the open board Comstock was much higher, selling up to 1.20, while Daly-Judge at 12.00, Daly-West at 51.10 and Creole at 33 participated. The session closed with a strong mar-ket, and the following pusiness was re-

Deserter Lammert Released. New York, Sept. 19 .- Rhinhold Lam-

mert, who was sentenced to three years' imprisonment last winter for deserting from the United States army in Porto Eico, and who has been pardoned through the efforts of his bride, whom he married soon after he deserted, has been released from the military prison on Governor's Island The bride lived in Jersey City.

When the marriage was disclosed in the newspapers an officer saw it, and Lammert was arrested by a detail of soldiers while he was at breakfast with his bride at her father's house. Mr Lammert wrote to President Roosevelt several times and finally the president granted a pardon.

FRANKLIN COLD MINES SYNDICATE

ate Utah Gold Mines.

New Company With Abundance of Capital Will Soon be Organized

In This City.

The Franklin Gold Mines Syndicate will be the name of a great company soon to be organized in this city for the purpose of owning and operating certain Utah gold properties. Dr. P. A. H. Franklin is promoting the company and will organize it.

When seen last evening Dr. Franklin stated that he has already purchased some of the most promising gold properties in Utah and that these properties will be made the basis for the organization of a \$1,000,000 commany, and so confident is he that the properties will prove up wonderfully that he further stated that the company will be called the Franklin Gold Mines Syndi-

"It will probably be the last company I shall organize and I have organized and promoted many," said Dr. Franklin. "I have already purchased some magnificent gold properties and am pushing development work now. I can't tell you yet just where they are as other deals are pending, but I will say they are in Utah. The Franklin Gold Mines Syndicate will be the greatest company owning the finest property

I have ever been connected with."

There are not a few people in Salt
Lake who will rejoice that Dr. Franklin
has found his gold mines in Utah. This means that wherever they are lo cated no energy or expense will be spared in developing them to the utmost into producing properties and that the mining interests of some special district and of the state generally will be given a push forward. The doctor has the most cordial wishes of hun-dreds for his success in this enterprise.

AMERICAN FORK PROSPECTS. B. W. Goodsell Predicts a Great Future for District,

Very much pleased with his inspection of the Goodsell Mining company's property in American Fork canyon, Pesident B. W. Goodsell returned to the city last evening en route to his home in Chicago. He brought with him some samples of rock that run through the furnices would yield a handsome

"It is a coming great district," said he, "and we have a very fine proper-ty. I look to see some wonderfully rich mines developed within a few years in the American Fork district. Work on our claims will, decidedly, be pushed with all possible speed,"

ANOTHER IMMENSE SUIT. United States Mining Company Sued By Ashland Owners.

In the Federal court another suit has been commenced against the Unit-ed States Mining company which is of most serious consequence to the de-fendants. The owners of the Ashland claim, Colonel Wall and the Ivanhoe Mining company, allege that the de-fendants have extracted from Ashland territory ores worth \$285,000 and that such is the nature of the offense that the defendants may be awarded damages up to three times that amount according to the provisions of the law. In the complaint it is prayed the plaintiffs be sustained in their right to mine the vein in dispute and be granted an injunction against the defendants to restrain the yatter from further working in Ashland territory The suit has many sensational feat-

ures, and as the property in dispute covers ore deposits estimated to be worth millions, the decision in the case will be anxiously awaited.

Colonel Wall and the Ivanhoe company will be represented by Ogden Hiles and other counsel, and the case will be fought to a finish.

THE UNITED STATES PLANT. Big Engines and Bollers Are Now Being Tested.

Supt. of Construction Fisher announced this morning that the steam is now up in the great boilers at the United States Mining company's new smelter preparatory to the testing of the engines and other equipment in the power house. "The plant," said he, "is ractically completed. We will proceed as rapidly as practicable to test the various sections and will in the meantime order supplies, coal, coke, etc. It will take some time to do these things and to fill the ore bins, which has now started. I can't say when a startup can be made but it will be some time yet before we are ready.

· BIG HORN BASIN OIL. Fine Petroleum Encountered at Depth of 1190 Feet.

Special Correspondence,

Basin City, Wyo., Sept. 18.-There is now no doubt as to the truth of an oil now no doubt as to the truth of an oil strike in the Bonanza fields, and residents of the Big Horn basin are in high feather over the prospects.

From a source that is reliable it is learned that Mgr. Whittier of the Kearns Oil company, a California concemen, struck a strong flow of oil at a depth of 1,190 feet. The oil was at first cased off, but later the well was plugged and sealed over with concrete. plugged and sealed over with concrete. Mr. Whittier has gone to California to

confer with members of the company relative to sinkin gthe well deeper and drilling new wells. Before Mr. Whittier departed, however, he relocated a large number of claims as required by law. In his afficlaims as required by law. In his ani-daylt Mr. Whittier said the well would flow 40 barrels of oil per day and that the product is the richest petroleum that has ever been found.

The oil was discovered on ground leased from the Bonanza Oil and Development company, a syndicate of Dako-

a and Nebraska capitalists. There is considerable exceltement here, especially among the "Mormon" farmers and other new-comers, and everyone that owns a claim will hold on to it, for there can now be no doubt as to the existence of plenty of high grade petroleum here. A boom is looked for before spring.

RAILROAD LIST **UNDERTONE FIRM**

er Part of Dealings.

Market Opening Was Hesitating and Irregular, Some Leaders Being in Demand at Advancing Prices.

New York, Sept. 19 .- The tone of the opening stock market was somewhat hesitating and irregular, many prominent stocks showing fractional declines, but a few leaders reflected a heavy demand at advancing prices. Transcontinental stocks absorbed the greater part of the limited dealings and also showed the most pronounced strength. Rock Island advanced 3 points to 207 on cash transactions and St. Paul rose 2% to 193¼, a record price. Missouri Pacific gained a point.

There was not much of interest in the railroad list aside from these movements, but the general undertone was firm. North American, Lead and Western Union gained 16 to 2. The confiern Union gained ¼ to 2. The confident strength of St. Paul and Missouri Pacific, revived talk of a tarff alliance between them. St. Paul improved steadily and touched 196½. The pre-ferred was also lifted nearly 3 points. The buoyancy of this stock caused an extension of the buying movement in the general list, but very few of the usual leaders were benefited. Canadian Pacific was bought heavily and rose 1%, and Chesapeake & Ohio, Union Pacific Northwestern and some minor stocks years 1 to 2 better. The failure of the were 1 to 2 better. The failure of the market to make any noteworthy response to St. Paul's movement was due to distrust of the monetary situation. St. Paul reacted over a point before

Bonds were strong at noon. Before the upward movement spent itself there were gains of a point or more in the Pennsylvania group ex-cept Norfolk and Western. The trad-ers detected realizing and took their profits, causing a backset. St. Paul, Rock Island, St. Louis, Southern preferred, and Northwestern reacted 11/2 to 2. The steadiness of the money rate around 7½ per cent aroused hopes of a favorable bank statement tomorrow.
